<b>Teacher Feedback</b>		Exemplary (4) / Proficient (3) / In-Progress (2)
-------------------------	--	--

**Directions:** For *each question that you missed* on the test . . .

1. **Record** the question number    2. **Write** the **question**    3. **Write** the **answer** (in words)
4. **Identify** the “**concept/topic**” from the question, and **elaborating** on the concept to show that you understand the answer. **DO NOT** restate of the answer! See example)
5. Staple this form to the **FRONT** of your test and turn it in.

# (1)	Question (2)	(3) Answer	(4) Elaborate on the concept
ex	<i>What part of the hypothesis is the independent variable?</i>	<i>If</i>	<i>The first part of a hypothesis tells what the condition is, what variable is being changed, it is what will be done in the lab. The IV is followed by the DV – what happens because of the IV.</i>
